EDUCATION

Temasek Polytechnic

Singapore

Diploma in Computer Engineering; CGPA: 4.0 / 4.0 (**Ranked #1, Common Engineering Programme**)

Apr 2024 – May 2027

- **Coursework:** Python Programming, OOP / Java, Full-Stack Development, AI & Machine Learning
- **Awards:** Engineering Scholarship (3× recipient), Director's List (Top 10%, 2024/25 & 2025/26)

All Distinctions

EXPERIENCE

IT Intern (Data Platform Engineering)

May 2026 – Present

The Coca-Cola Company (Pacific Refreshments Pte. Ltd.)

Singapore

- Owned **end-to-end development** of a Power BI data model unifying **Dynamics 365, GARP, and SharePoint** into real-time incident and asset tracking across three regions (**1,200+ devices**)
- Identified and fixed **six broken DAX measures**, including aggregation logic that inflated MTTR; restored KPI accuracy for dashboards reviewed weekly by regional IT leadership
- Reverse-engineered undocumented GARP business logic to rebuild lifecycle reporting, replacing an unmaintainable legacy dashboard

Software Engineer Intern

Apr 2026 – May 2026

Datality Lab / Moodie.AI

Singapore

- Developed a job skills portal that loads a **272K-row** SkillsFuture dataset into a client-side SQLite database (sql.js/WebAssembly), delivering **sub-100 ms search** across 50K+ skill-to-role mappings with no backend
- Designed a speech analytics pipeline that flagged **~3,950 vocal anomalies** across 17 hours of audio from 5 ASD students, replacing manual therapist review with automated baseline detection
- Parallelized audio processing across multiple CPU cores (**~50% faster**); implemented longitudinal trend detection to surface behavioral drift across 25 sessions

PROJECTS

Lizzie – AI Desktop Automation Agent | Electron, Node.js, Win32 UIA, Whisper ONNX, PowerShell

Jun 2026

- Independently developed a Windows AI agent with **autonomous desktop automation** (13 interaction types, **~2 s/step**) and a **vision-based screen tutor**, both with offline voice via bundled Whisper ONNX
- Delivered a **provider-agnostic AI layer** supporting Claude, Gemini, and GPT through a single API contract
- Packaged a **one-click installer with encrypted credential storage**; validated usability with 8 early testers

KakiLearn AI | Next.js 16, React 19, TypeScript, Tailwind CSS v4, Claude Haiku, Google Cloud TTS

Feb 2026

- Shipped a mobile web app teaching seniors digital skills via interactive sandboxes, voice-graded quizzes, and AI-generated courses in **4 languages**; tested with **20 seniors**
- Designed a multilingual voice companion that converts spoken topics into structured lessons and quizzes, powered by Claude and YouTube Data API v3

Career Quest Map | Python, Pygame, LangChain, Azure OpenAI | Finalist, Top 4 / 40 teams, NTU Hackathon

Jan 2026

- Led development of an AI career exploration game using structured prompting, role-play, and decision trees; achieved **4.4/5.0 satisfaction** and **100% completion** across 13 sessions with 11 students

TECHNICAL SKILLS

Languages: Python, Java, SQL, HTML/CSS

Frameworks: React, Next.js, Flask, Tailwind CSS, Electron, TensorFlow, scikit-learn, LangChain

AI & Cloud: Claude Code, Gemini, Codex, Hugging Face, Google Cloud Services, Microsoft Foundry, GCP, Vercel

Developer Tools: Git, GitHub, SQLite, MQTT, InfluxDB, Grafana, Win32 UIA, UiPath, Tableau, KNIME, Power BI

LEADERSHIP & CERTIFICATIONS

President, Computer Engineering NeTwork (CENT), Temasek Polytechnic

Apr 2025 – Apr 2026

Peer Tutor, Digital Fundamentals & Engineering Mathematics, School of Engineering

Apr 2025 – Feb 2026

Certs: Microsoft Azure AI Apps and Agents Developer Associate | Google AI Professional | NVIDIA Deep Learning | CS50x
